

VACANCIES – SHIFT BOSS

Applications are invited from suitably qualified and experienced persons to fill the vacant Shift Boss position that has arisen at Bulawayo Mining Company (Pvt) Limited (How Mine).

The Position

The overall objective of the position is to supervise back shift mining activities to ensure that production, development and stoping targets are realised in the safest, most cost-effective and efficient manner. The incumbent must be able to work with the barest minimum supervision as work is carried out in the absence of senior supervision.

Responsibilities

- Re-entry and supervision of hoisting, development, stoping and tramming activities during back shift and that set budgets are met
- Supervising the safe handling and use of explosives, use and maintenance of tramming equipment
- Compilation of consolidated back shifts reports
- Adherence to mining regulations

Qualifications and Requirements

- BSc in Mining Engineering or Diploma in Mining
- FBL and NEC Certificate of competency
- At least 3 years' experience
- Knowledge in hard rock mining, development, stoping and shaft systems
- Knowledge of SHEQ management systems would be a distinct advantage
- Valid First Aid certificate

Applications with detailed CVs and certified copies of certificates to reach the undersigned by 16 February 2018.
